# **SITUATION SUMMARY**

## **Glacial Induced Flooding, South Central Siskiyou County**

### **U.S. Forest Service, Shasta- Trinity National Forest- Incident Overview:**

Yesterday afternoon, 09/20/14, the Shasta-Trinity National Forest confirmed a debris flow in Mud Creek Canyon on the southeast side of Mt. Shasta. The mudslide began around 3 p.m. and continued through the night. Forest Service resources have been monitoring the situation from the ground and in the air.

The exact cause of this slide has not been determined; however, it is believed to be due to drought conditions. Pockets of liquid water can be held in place by glaciers; when a portion of that glacier shifts or melts, it can release water down the mountainside. These flows gather debris as they travel, creating potentially dangerous conditions for anyone traveling through the area.

Yesterday, the mudslide crossed Pilgrim Creek Road around 1800 hours. This road and Forest Service Road 31 have been closed. As of 0800 hours this morning, 09/21/14, flows were beginning to recede and the Forest Service assessed the impacts to the crossings. These closures and other impacts from the slide are anticipated to remain in place for the next several days. Highway 89 is open.

As debris continues to flow, impacts will also be seen in the lower McCloud River. Sediments from Mud Creek will likely impact water quality and fishing by creating turbid conditions in the River below Lake McCloud.

No structures have been damaged and there are no reported injuries.

### **Cal OES Inland Region Report**

The mudflow is isolated to Pilgrim Creek drainage. The flow went over Pilgrim Creek Road and 3 feet over bridge; the area is being cleared. The nearby community of Shasta View Estates is not directly impacted; however, Pilgrim Road is one of their two egress routes. There are no utility impacts or impacts to major population centers or transportation corridors.

### **Associated Weather Watches and Warnings:**

- A Flash Flood Watch is in effect until 2100 hours this evening for south central, north central and southeast Siskiyou County.
- Thunderstorms are developing over Mt. Shasta, with heavy rainfall possible over the area that experienced glacial melt induced flooding. This may bring additional flooding to Mud and Pilgrim Creeks into mid evening.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

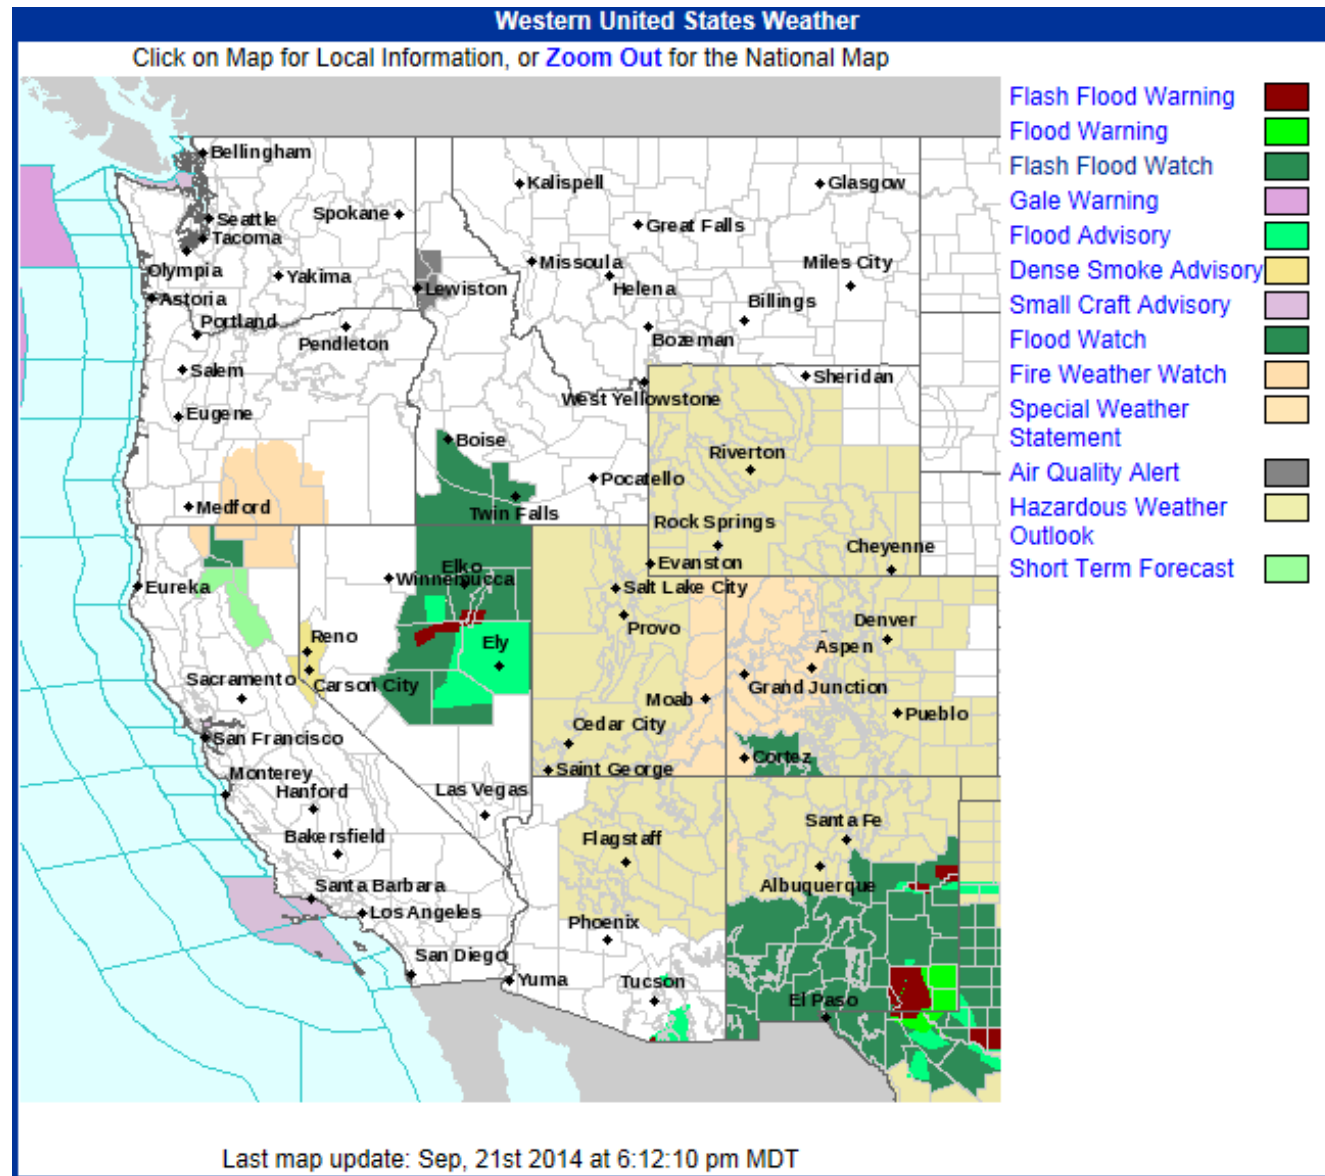

### **NORTHERN CALIFORNIA**

Moisture and instability wrapping around the low will keep somewhat cloudy conditions over northern and eastern areas in particular today. There will be some areas of light rain or showers and there could also be a few thunderstorms as well. Monday and Tuesday will be in between weather systems. A weakening trough will approach the coast Monday, but fall apart before it can bring any moisture ashore. Tuesday, a much stronger, wet weather system will be approaching the coast. Moderately strong south to southwest winds will develop (8-18 mph with gusts to around 28 mph), particularly over the higher terrain. Wednesday morning, the weather system will begin moving ashore along the north coast, and it will move slowly during the day and overnight. Areas of locally heavy rain are expected, such as around the King Range, Smith River drainage and in the Northwest Mountains. Strong south to southwest winds are expected (10-22 mph with gusts 30-40 mph, strongest over ridges). This may bring about some low afternoon relative humidity in a few eastern areas. The system will continue moving east Thursday to bring some rain to most areas of Northern Operations by late in the day. Showery conditions will prevail Thursday night and Friday, mainly in the northern areas. Thursday and Friday will be the coolest days of the week with afternoon maximum temperatures on the order of 10 degrees below normal. Highest elevation peaks could have some snow (not that it will linger long). After Friday, there is considerable uncertainty as to how the weekend weather will develop. If the low lingers over the region, some cloudiness and a few showers will prevail. If the low moves east, high pressure will quickly move into the region from the west with strong warming and drying conditions and breezy north winds. Either way, by early next week, warmer, drier conditions seem likely to return.

### **SOUTHERN CALIFORNIA**

Temperatures will remain around 5 degrees below normal today, with upper 60s and 70s in the mountains and 80s to low 90s in the valleys. Minimum relative humidity will remain between 20% and 40% away from the coast today. There will be isolated showers and thunderstorms near the Nevada border through this afternoon. A warming and drying trend will affect the region Monday through Wednesday. Winds will be light through Wednesday. Temperatures will cool across the region Thursday through next weekend. Scattered showers and isolated thunderstorms will move across portions of Central California Thursday through next weekend. Strong south to west winds will surface across the mountain ridges and desert passes Thursday afternoon through Friday evening.

- Cal OES Inland REOC activated to Level 2 at 0700 hours in support of Inland Region fires.
- Cal OES SOC is activated to Level 2 and staffed with the White IST at 0700 hours.

### **Shelter Operations**

- American Red Cross Shelter - Mount Shasta Armory, 618 Everitt Memorial Hwy, Mount Shasta. Current population – 7.

### **Fire Suppression Water Issue**

- The City of Weed lost one of their drinking water storage tanks and is drawing water from a second tank. That tank is now running low and the well is sucking sand. With strict water conservation measures in place, the water system is maintaining enough pressure to supply drinking water; however, there is not sufficient water pressure for fire suppression. Cal Fire water tenders are in place. Cal OES is working with the State Water Resources Control Board, Drinking Water Program to assist with finding a solution to this issue. The State Water Resources Quality Control Board, Drinking Water Program will conduct a site visit on Monday, September 21, 2004.

### **Schools**

- Weed High School and Weed Elementary School will be open for normal operations on Tuesday, September 23, 2014.
- The elementary school was partially damaged but staff will transfer classes to other parts of school.
- Students will be bussed through the fire zones.

## **Magnitude 6.0 Earthquake, American Canyon, Napa County**

### **Situation**

On Sunday, August 24, 2014, at 0320 Hours PST, a magnitude 6.0 earthquake struck five miles northwest of American Canyon, CA.

- The Governor declared a State of Emergency, 08/24/14.
- On September 11, 2014, the President declared a major disaster declaration in Napa and Solano Counties.

### **Recovery Activities**

- Based on a request for additional IA information for the major disaster declaration request, IA teams conducted PDAs 09/8/14 through 09/12/14 in Napa County, the City of Vallejo, and Solano County. IA PDA teams conducted additional PDAs 9/17/14 through 9/19/14 finalizing PDAs in Napa County.
- The City of Napa website has information regarding earthquake recovery resources.
- Cal OES Recovery PA worked closely with the Operational Areas to schedule the PA Applicants Briefing to advise state agencies, local governments, and private non-profit organizations impacted by the earthquake the types of assistance available and the programmatic guidelines. Time and location: 09/23/14 at 1000 hours at the Napa Valley Exposition in the Chardonnay Hall, 575 3<sup>rd</sup> Street, Napa, CA.
- The Napa Long Term Recovery Committee (LTRC) is in the process of forming its leadership, establishing policies and procedures, and identifying a Mission statement. A follow up meeting is pending.
- State Voluntary Agency Liaison (VAL) participated in a Long Term Recovery discussion meeting on Monday, 09/15/14. Participants included several voluntary organizations, state and federal VAL, and leadership from Northern CA and Solano VOAD. A presentation on long term recovery and update on current recovery efforts was provided. Due to the absence of local faith based and other organizations that may have resources, SVOAD will reach out to expand the engagement of additional nonprofit and faith based partners. Once the organizations are identified, a follow up meeting will be held in hopes of identifying key leaders interested in forming a LTR committee.
